HOLLAND HUNTER, CHAIRMAN  
DEPARTMENT OF ECONOMICS

April 5, 1967

Mr. William Morell, Director  
Office of Research and Reports  
P.O. Box 1925  
Washington, D.C. 20013

Dear Mr. Morell:

For some time I have been on your mailing list for research reports dealing with the Soviet economy, and I write to say that they are very useful in my work. They provide scholarly material which assists my own research and adds depth to my teaching. Occasionally students doing research papers can use one, and it gives them an indication of the high level of research the Agency makes available. Some of these students, in turn, will become future scholars in the area and it is well that they have this knowledge.

I hope that the recent publicity about the Agency will not in any way hinder the continued distribution of these valuable studies. Your library of open sources is an extremely useful national resource, and objective research based on these sources should be available to improve our understanding.

Sincerely,

Holland Hunter
